Sendai Framework for DRR, 2015-2030

1 OUTCOME

The substantial reduction of disaster risk and losses in lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries

1 GOAL

Prevent new and reduce existing disaster risk through the implementation of integrated and inclusive economic, structural, legal, social, health, cultural, educational, environmental, technological, political and institutional measures that prevent and reduce hazard exposure and vulnerability to disaster, increase preparedness for response and recovery, and thus strengthen resilience

4 PRIORITIES

Understanding disaster risk

Strengthening disaster risk governance to manage disaster risk

Investing in disaster risk reduction for resilience

Enhancing disaster preparedness for effective response, and to “Build Back Better” in recovery, rehabilitation and reconstruction

7 TARGETS

- ↓ DISASTER MORTALITY BY 2030
- ↓ # of AFFECTED PEOPLE BY 2030
- ↓ ECONOMIC LOSS BY 2030
- ↓ INFRASTRUCTURE DAMAGE BY 2030
- ↑ DRR NATIONAL/LOCAL STRATEGIES BY 2020
- ↑ INTERNATIONAL COOPERATION BY 2030
- ↑ EWS AND DR INFORMATION BY 2030

Sendai Framework Midterm Review

Political Declaration A/RES/77/289

- Commends significant increase in countries with national disaster risk reduction strategies since 2015 and the considerable progress made in regional and subregional cooperation mechanisms for disaster risk reduction
- Calls for strengthened sub-regional cooperation on transboundary risk and disasters
- Need to develop or strengthen comprehensive disaster risk governance, including through full, equal, meaningful and inclusive participation

“While we recognize that the implementation of the Sendai Framework is delivering positive results, we are deeply concerned that the pace of implementation is not sufficient nor equal.” (MTR PD para 5)

EFDRR Roadmap 2021-2030

The EFDRR Roadmap supports implementation of the Sendai Framework for DRR, by:

- Supporting regional, national and local disaster risk reduction strategies and actions by identifying shared gaps, challenges and opportunities.
- Highlighting effective arrangements for national and local sharing of good practices, pathways and opportunities for more risk-informed, gender-responsive, age-sensitive and inclusive policies, strategies, programmes and approaches.
- Promoting and supporting systems for regional collaboration and shared learning.

European Forum for Disaster Risk Reduction

Roadmap 2021-2030

For a disaster-resilient European and Central Asian region in 2030

The Sendai Framework for Disaster Risk Reduction 2015-2030 provides an opportunity for countries to adopt a concise, focused, forward-looking, inclusive and action-oriented national framework for disaster risk reduction implementation at country level, including modalities of cooperation based on commitments.¹ The Sendai Framework recognizes the role of regional platforms for disaster risk reduction in guiding and supporting national and local actions, including through regional DRR frameworks and strategies. The European Forum for Disaster Risk Reduction (EFDRR) is a regional platform for Europe and Central Asia comprising 55 countries. These countries have different risk profiles and vary in their approaches to disaster and climate risk reduction implementation – be it policies, strategies, laws, investments, levels of preparedness, collaborative arrangements or partnership modalities.

The EFDRR Roadmap 2021-2030 identifies four shared priority areas for achieving the priorities of the Sendai Framework for Disaster Risk Reduction 2015-2030. The four shared priorities include 16 common action areas for development and investment, along with five enabling approaches. The Roadmap builds on consultation with European and Central Asian countries, the review of progress in implementing the Roadmap 2015-2020, and lessons learned from the Covid-19 response and recovery. The Roadmap is also informed by the Global Platform 2019 and the guiding principles for the Global Platform 2022. The EFDRR Roadmap 2021-2030 supports the implementation of the Sendai Framework by:

- Supporting regional, national and local disaster risk reduction strategies and actions by identifying shared gaps and challenges to and opportunities for enhancing disaster resilience in the region.
- Highlighting effective arrangements for national and local sharing of good practices, pathways and opportunities for more risk-informed, gender-responsive and inclusive policies, strategies, programmes and approaches.
- Promoting and supporting systems for regional collaboration and shared learning.

The EFDRR Roadmap 2021-2030 will be endorsed during the European Forum for Disaster Risk Reduction hosted by the Government of Portugal on 25th and 26th November 2021. This document is a final draft of the EFDRR Roadmap for its final review by the 55 Member States of the European and Central Asia Region. The Secretariat of the EFDRR is composed by the European Commission, the Council of Europe and the United Nations Office for Disaster Risk Reduction (UNDRR). For any question or clarification, please contact the UNDRR Regional Office for Europe and Central Asia: undrr-roeca@un.org
